Superior Legal Advice Coming to a Screen Near You

Established since the 1770's Fraser Brown Solicitors of Nottingham prove they are not afraid to move with the times. The introduction of 'Client Care Television' to their reception is just the latest innovation aimed at keeping their clients up to date and informed.

The bespoke film, produced by Turner & Wagstaff Associates, is presented in an eye catching yet easy to watch format, informing waiting clients of the full range of services Fraser Brown have to offer it ensures they will always know who to turn to, whatever their circumstances and needs. Additionally it allows clients to 'meet the team' by putting faces to names which in turn can help put them at ease in what may be an otherwise stressful situation.

Taking this media a step further, Fraser Brown have made the informative film available on interactive DVD enabling their message to reach new and existing clients in their homes and workplaces.
