Client Care TV

Hargreaves Gilman Solicitors

Forward thinking Manchester Solicitors, Hargreaves Gilman, introduce Client Care TV to their Didsbury office.

In order to make sure their clients are fully informed and up to date with all the services they have to offer Hargreaves Gilman's bespoke film production plays out on a wide screen LCD TV in their reception area.

This eye catching and easy to watch programme, produced by Turner & Wagstaff Associates of Blackpool, introduces the Partners, putting faces to names, and showcases the full range of services on offer.

Also available in DVD format, presented in a smart wallet, Hargreaves Gilman can now reach existing and potential new clients in their home and workplace.

"A visit to the solicitors can be a daunting experience but we are finding the introduction of our Client Care TV system is having a very positive effect on our clients and their waiting experience. New clients like the way in which the film introduces the practice helping them relax and giving them the feeling they already know us".
